The Good. . .

Most Happiest Countries

Northern European countries dominated the ranking of the annual World Happiness Report.
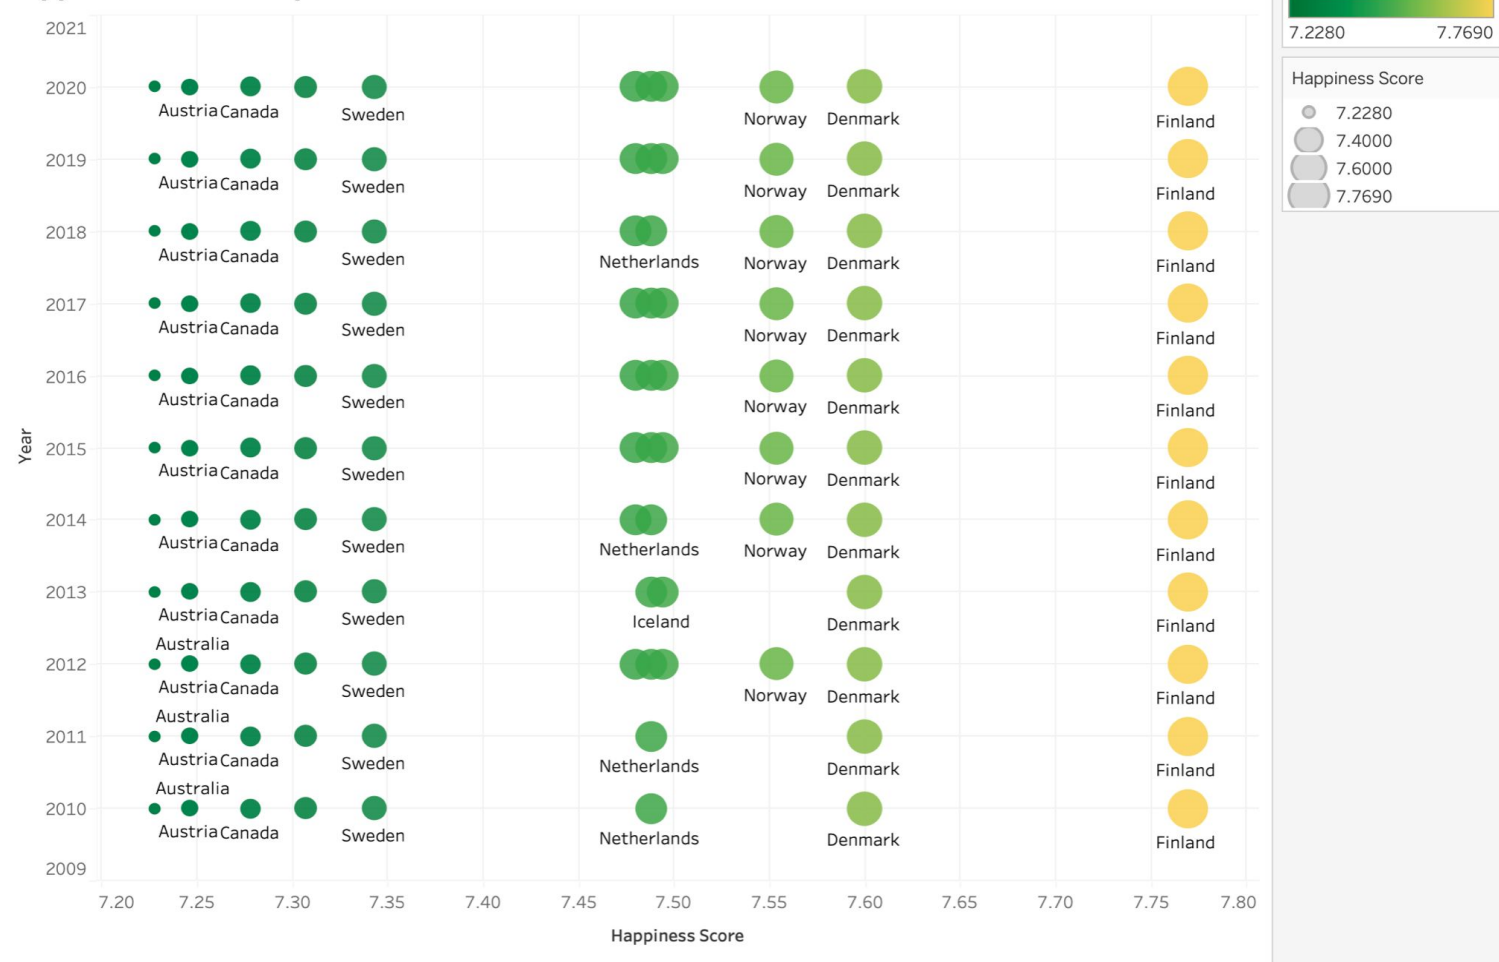

High GDP per capita, social support, absence of corruption in government, healthy life expectancy, freedom to make life choices, generosity or charity towards others: these are the six key variables in the happiness report to evaluate life satisfaction.

Happiness Index by Region

Region
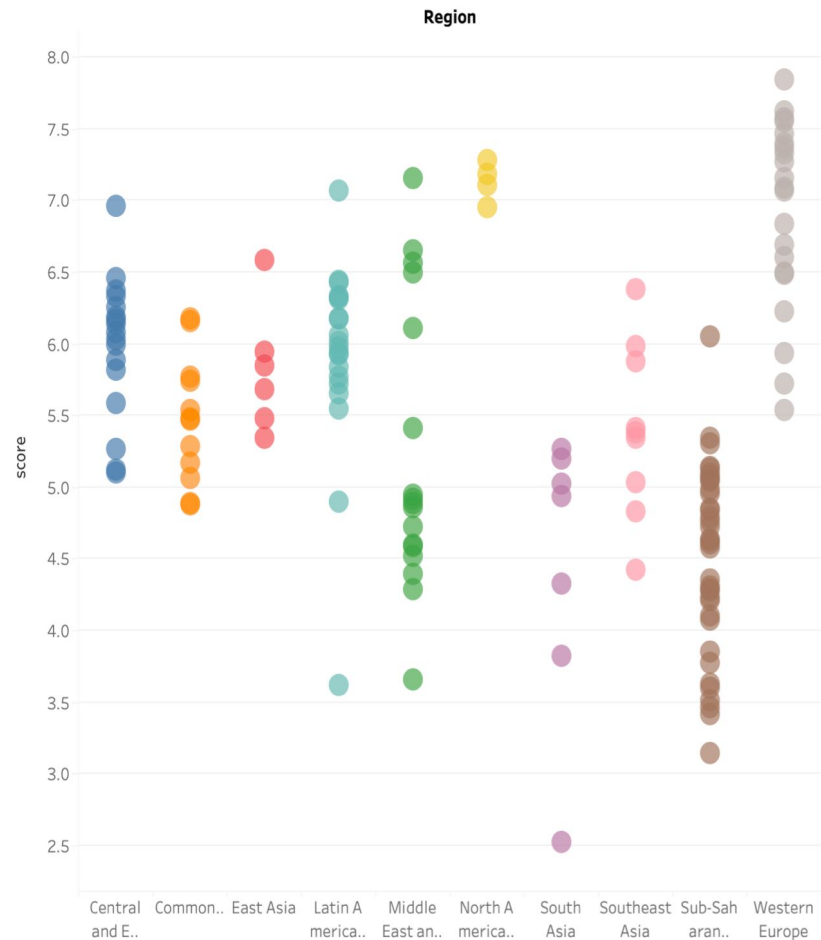

The six major factors are the primary contribution of being the happiest continent with an average of 7.4 happiness score while least happiest countries having a 3.3 score which is a huge difference.
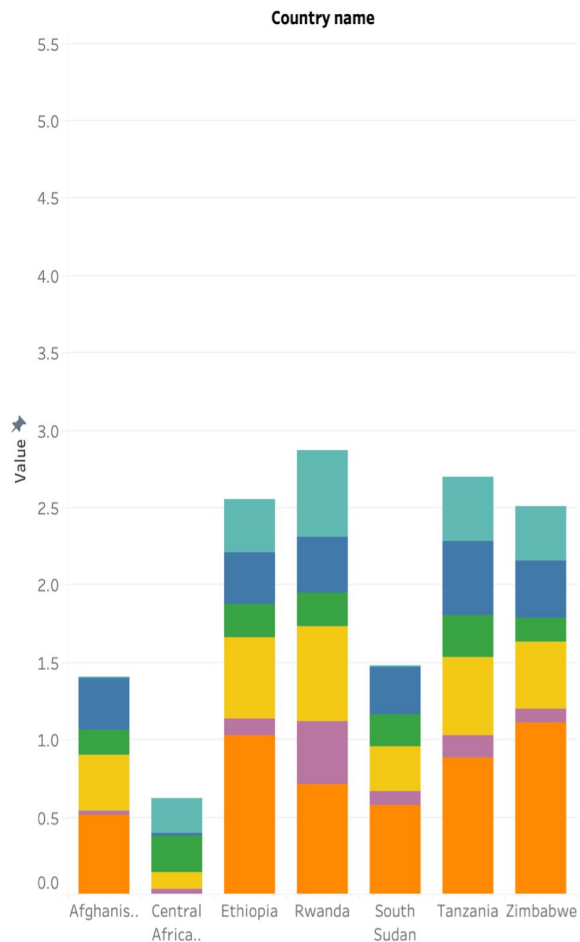

Happiness Index of top countries

Scandinavian countries being the top 3 in the happiness report from the last 10 years and seems to be determined to stay firmly for years.

The Bad. . .

Least Happiest Countries

Measure Names
- Freedom to make life..
- GDP per capita
- Generosity (2019.csv)
- Healthy life expecta..
